Choose Thomas & Betts, and connect to the power you need.

For over 100 years, Thomas & Betts has been successfully applying innovative design and manufacturing techniques to meet the changing needs of the marketplace. Today, we offer more than 100,000 electrical components and systems to terminate, connect, fasten, protect and identify wires, components and conduits. This product offering makes us one of the largest and best sources of electrical components in North America.

What are the benefits of choosing Thomas & Betts?

Owners, architects, engineers, contractors and distributors have always profited in a number of important ways by specifying products from Thomas & Betts. At T&B, we're committed to:

- Convenience of single-order, single shipment to your site for thousands of stocking items.
- Expert local point of contact for clear, consistent information regarding training, codes and standards, and cross-referencing to thousands of other products.
- Quality brands that have proven themselves over time so you can rely on their performance.
- Inventive design and manufacture of problem-solving products for electrical construction, maintenance and OEM manufacturing.
- Offering a best of class warranty and returns policy.
- Uniform carton labeling with illustrations and clear, concise identification, along with additional bar-coding for convenient inventory management.
- Convenience of a nationwide network of stocking electrical distributors.
- Outstanding customer service capability - unmatched in the industry.
- World-class manufacturing, data systems, and warehousing to help meet your customer service needs promptly and efficiently.
- Supplying you with the right products, zero-defects, convenient packaging, on-time delivery and competitive pricing.

We deliver the solutions that make your job easier and offer the power to bring it all together in one package. Call us today and let us help you profit from sourcing your electrical products from the leader, Thomas & Betts.

*Call **1-800-816-7809** for Immediate, Knowledgeable Assistance.*

T&B Access, for online – 24/7 information at your fingertips.

T&B Access is an online tool that provides distributors with a "real-time" solution for most frequent inquiries and order requests. Now distributors can obtain a faster answer without having to make a phone call to T&B. Through T&B Access, you can check order status, price and availability, retrieve an electronic copy of an invoice & packing slip, and use our online competitor cross reference. You also take advantage of our Express Order Service, verify delivery service options, arrange for returns, and send an automated expedite e-mail directly to your CSR. And no phone call required.

In a real hurry? Go to www.tnb.com today, and discover the advantages **T&B Access** provides for T&B Distributor partners, day or night.

Call **1-800-858-6022** for our toll-free 24-hour Fax-On-Demand service for technical documentation, brochures and product literature or contact our internet site at **www.tnb.com**.

For Canadian Customer Service and Order Inquiries, call:
450-347-5318 or fax **450-347-1976**.

For International Technical Support, call:
901-252-5000, enter 1, 6672.
